Current Resident

**RE: Graham Hill Water Treatment Plant Filter Rehabilitation and Upgrades Project**

Dear Neighbor of the Graham Hill Water Treatment Plant:

The City of Santa Cruz Water Department has contracted with Anderson Pacific Engineering Construction, Inc for the Graham Hill Water Treatment Plant Filter Rehabilitation and Upgrades Project. Over the course of this project, we will retrofit six filters at the treatment plant and install new underdrain systems, filter media, piping, valves, and other equipment that will help prolong the useful life of the plant.

Work is scheduled to start at the treatment plant on Graham Hill Road in the middle of October. The project is expected to be completed in approximately fourteen months.

While we will strive to keep construction disturbances to a minimum, you may notice increased traffic due to construction workers, equipment, and deliveries as well as some construction noise during the day.

Project working hours will be weekdays from 8 AM to 5 PM but occasional night work may be required during critical tasks. We appreciate your patience and understanding during our work to improve your drinking water system.

Project information and updates to the construction schedule will be maintained on the City's website under the Water Department engineering section's "Current and Recent Projects" page. You can reach this page directly from the following link:

<http://www.cityofsantacruz.com/waterprojects>

We will hold a meeting at the treatment plant on **Tuesday, October 7, from 6:00-8:00 PM**, to share details of the project with the community. We hope you will join us. You will also have a chance to tour the treatment plant during the meeting. Please RSVP to Eileen Cross at [ecross@cityofsantacruz.com](mailto:ecross@cityofsantacruz.com) or (831) 420-5213.

If you have any questions or concerns about the project, or would like to be notified of construction schedule updates via e-mail, please contact me at [rivera@cityofsantacruz.com](mailto:rivera@cityofsantacruz.com) or by phone at (831) 420-5313.

Sincerely Yours,

Isidro Rivera, P.E.  
Associate Civil Engineer  
City of Santa Cruz Water Department
