SECTION 1: GENERAL INFORMATION

1.1 Introduction
The City of Santa Cruz ("City") is issuing this Request for Proposals (RFP) for a review of the identified needed renovations of the existing downtown library building (previously estimated to be around $37.8 million) and a project proposal for the renovations that could be completed within the existing $27 million budget. The City seeks a qualified architectural-engineering consultant from an individual or team ("Consultant").

1.2 Project Description
The City of Santa Cruz is engaged in a planning process for the Downtown Santa Cruz library branch. The City Council is currently reviewing a number of options including renovation of the current library building, construction of a new library on the existing site, and the construction of a new library within a new mixed project. The library project is being funded through Library Bonds (measure S) approved by the voters in June 2016.

1.3 Project Background
In 2013, the Santa Cruz Public Libraries engaged in a comprehensive facilities master planning process resulting in the voter approved Measure S bond measure in 2016 slated to address library facility needs across the system. Funding for the Downtown Library was identified as an urgent need and the City Council directed the formation of a Downtown Library Advisory Committee (DLAC) to comprehensively examine the current facility and the feasibility, options and costs for developing a Downtown Library branch that meets the needs of the community and voters. DLAC unanimously voted to pursue a new library facility as part of a mixed use project.

On September 11th, 2018 the Santa Cruz City Council voted to accept the DLAC recommendations and move forward with the project design phase for the City-owned site at Parking Lot 4.

On May 14th, 2019 the Santa Cruz City Council voted to put a hold on the decision to proceed with a Downtown Library project and convene a Council Subcommittee to take a fresh look at the Downtown library branch and investigate library project alternatives.
